Elder Jas. E. Talmage Discourses | Campbell's Leaky Pipe Up for Upon Principles of Mormonism.

LOVE OF GOD AND MAN.

The Life of Him Who Would Profess Christianity.

Yesterday was fast day, characterized throughout the Church by special exercises, consisting for the most part of the confirmation of new members, the ble sing of infants, the administration of the sacrament and testimony bearing. There was no regular meeting at the tabernacle, but for the benefit of strangers in the city and others who might wish to attend, a special service was held. Elder James E. Talmage delivered a short address, apprepriate to the occasion and a program was renderen by Prof. John J. McClellan.

Elder Talmage explained briefly what fast day means to the Latter-day fast day means to the Latter-day Snints. Fasting is a blessing to the person abstaining from food, the bene-fits being of a two-fold mature, spirit-ual and physical. Nor are these the only benefits of the system, as that which is saved in the abstinence of the voluntary faster is devoted to the re-lief of those who often are compelled lief of those who often are compelled to go without food, or whose larder is at the best not very well provided for. One of the cardinal principles of the Church of Jesus Christ of Latter-day Saints is benevolence, declared Elder Talmage. The love of man for his fellows is inseparably connected with ove for God, and one cannot exist without the other. The Church cares well for its members who are unio cunate the work of charity being car-ried on by the general organization and by its auxiliaries.

and by its auxiliaries.

Broad, liberal and tolerant is the gospel of the Son of God. In the eternal world each soul will find the place for which he is peculiarly fitted. Mormonism has respect and tolerance for the beliefs of all people, glving to others the privilege claimed for themselves, to worship God according to the dictates of conscience. Man did not originate with early life, but had a pre-existence, as he will have an after existence. He is a progressive being and to him is given the privilege of advancing eternally.

The numbers rendered by Prof. Mc-Chellan on the organ were as follows:

# SUPREME COURT DECISIONS.

The decision of the district court which ome time ago found for the plainting a the action brought by Peter N. in the action brought by Peter N. Campbell and S. B. Miller, trustee, against Hugh I. Gowans and wife to recover on a mortgage foreclousure, was reversed Saturday by the supreme court, which found reason to award the decision to the opposition on the ground that plaintiffs had been contributors to their loss, and that the defendants were innocent parties.

The suit had its origin in the absonding of Peter J. Conway, with money paid him by Gowans and wife, on account of a \$560 debt to Campbell.

O. S. Price, who was the victor in an original action in the lower court, for the recovery of money said to be due for legal services, rendered the Western Loan and Savings company, has been decided by the supreme court to be the loser, but that he may appeal.

Tonight.

The Two Inseparable and Necessary in Hirth and Raleigh Believe They Are 31,350 cash, balance can stand. Not Getting All the Taxpayers' Money They Should.

> When the city council meets tonight it is expected to consider at least one very important matter of moment to a great many people. This is the matter of the 4,800 feet of leaking outlet sewer pipe about the acceptance of which there have been so many postponements, and about which the council is now in a quandary. When the contract was let to A.

pipe, disaster was forecasted for him by nearly all the contractors in the city, and that even if the pipe was now completed in a satisfactory way, and ready for acceptance by the city, he ready for acceptance by the city, he would be out a great deal of money, is an established fact. That the wooden pipe is not completed and that it cannot be accepted by the city, is a fact which will make the loss of the contractor much greater, and the condition of the work is such that it can hardly fail to work a loss to the city also.

There was to have been a special meeting of the council Saturday, but his was postponed, and the matter will

meeting of the council Saturday, but this was postponed, and the matter will come before the council this evening. It is thought by many of the council that the only way to dispose of the matter that will, in the end, be satisfactory to the city, will be to take over the work, if there is any of it that can be made available, and complete the pipe at city expense.

The matter was discussed in an informal way by the finance committee Satnal way by the finance committee Sat-orday afternoon by the finance com-nities, at which time the proposition

of turning on the power from the cumping plant was proposed, but as the leaks in the pipe are so many and so bad that they could not be closed while the pumps are working, which would necessitate the closing down of sover operation again within a few sewer operation again within a fedays, this probably will not be done.

#### THE SALARY QUESTION.

During the meeting of the finance committee in the office of the mayor Saturday, raises, in salaries of certain of the city employes was discussed, but definite action, if any is to be taken, cannot be had before tonight, when the eport of the finance committee will c made to the council. It is understood that the council is of

It is understood that the council is of the opinion that there are two or three heads of departments whose pay is too small, and that a raise in these is fa-vored by the majority. Among those who are thought to be drawing too low a salary, are Building Inspector A. B. Hirth, and Food and Dairy Commis-sioner Walter J. Frazier, whose pay will probably be increased to \$100 a month.

month.

The salary of Street Inspector Raleigh is also conceded by many of the council to be disproportionately low to the services required, and the expense incurred, and it is not unlikely that an effort will be made to raise his salary also, but it is also thought an effort of this kind will meet with opposition.
